Cryptshare Welcomes John Jeffries to Its Leadership Team Seasoned sales professional to bring deep industry experience to Cryptshare's U.S. operations

BOSTON – July 25, 2019 – Cryptshare, the German developer of data security and privacy solutions for the exchange of business-critical information, is excited to announce the addition of John Jeffries to its leadership team. Jeffries brings more than 16 years of sales experience to the company, further strengthening its U.S. presence.

Jeffries has previously managed sales teams at Dassault Systems, Agfa Corporation, Oracle and Progress Software. He also was Director of Sales and Sales Operations at Mirror Image Internet in Tewksbury, Massachusetts for five years and most recently headed up Inside Sales at Motivis Learning - an outgrowth of Southern New Hampshire University.

“We are delighted to have someone with such a depth of experience in business and our market join the team,” says Mark Forrest, President of Cryptshare Inc. and CEO Cryptshare AG. “There is no doubt that the market here in the U.S. greatly needs technology like Cryptshare and that there is a huge opportunity ahead of us. John can help us navigate towards that success and focus on what will bring the greatest value to our American customers. He is very well versed in helping clients navigate through often complex implementations to achieve outstanding results in their businesses.”

Jeffries graduated Magna Cum Laude from Franklin Pierce College in Rindge, New Hampshire with a bachelor's degree in Business Economics. He also graduated from the Massachusetts School of Law with a Juris Doctorate.

Outside of work, Jeffries was one of the youngest candidates for elective office in Salem, New Hampshire, campaigning for Budget Committee at the age of 18. In his free time, he enjoys golf, weightlifting, and assisting as a coach with local sports, particularly youth hockey. He and his wife Lisa have been married for 20 years and have three children: Danielle, Evan, and Olivia.

About Cryptshare

Cryptshare AG develops and supplies software solutions that help companies support, optimize and secure their email processes, important data transmissions and large file handling. Today, more than four million users in 2000+ companies across 80 countries rely upon its leading security technology, Cryptshare, for the safe exchange of their business sensitive information. Founded in 2000, their success has been recognized with the Cybersecurity Excellence Award 2017 and the Infosecurity Products Guide Global Excellence Award. The company is headquartered in Freiburg, Germany, and operates sales offices in the UK and the Netherlands. Cryptshare, Inc. operates as a subsidiary of Cryptshare AG from its U.S. office in Boston.
