

Biography

Dominik Lehr

Founder and CEO of Befine Solutions – The Cryptshare Company

Dominik Lehr founded Befine Solutions AG in 2000. As joint Chief Executive Officer (CEO) he is responsible for the strategic alignment and operating business of the company. He founded the company during his extensive work for the Connect Group. Which is also located in Freiburg and now is named Leitwerk AG.

Dominik recognized the lack of solutions for exchanging messages and large files in a fast and secure way as a universal problem for companies. Together with his team he took the opportunity and created a solution around universally used e-mail technology, which has established itself as the undisputed number one choice for communication of this kind in the business world. The aim was to find an easy and cost-efficient way to remedy the shortcomings of e-mail concerning security, file size restrictions, and traceability.

The result of this development was Cryptshare – a communications solution that facilitates the secure exchange of information. With Cryptshare e-mails and files of any size can be exchanged spontaneously – easily and securely, traceably and at low cost. Today more than 1,400 companies in over 30 countries use Cryptshare with about 3 million users.

About Cryptshare and Befine Solutions

The owner-managed Befine Solutions AG develops and supplies software solutions that help companies support, optimise, and secure their processes. Founded in the year 2000, the company with now over forty employees has its headquarter and development site located in Freiburg im Breisgau, Germany. There are sales locations in the UK and the Netherlands. In 2017, a subsidiary in America was established: Cryptshare Inc.

The focus is on Cryptshare, a communication solution for the exchange of sensitive business information. It makes it possible to send and receive e-mails and large files ad-hoc – securely, easily and at low cost. Cryptshare also offers auditability which helps companies follow compliance rules and regulations. Today more than 1400 companies use Cryptshare with about 3 million users in over 80 countries. This success is underlined by the award of the “Cybersecurity Excellence Award 2017” to Befine Solutions AG.
