Biography

Mark Forrest

Chief Executive Officer, Befine Solutions – The Cryptshare Company

As Chief Executive Officer (CEO), Mark Forrest has led Befine Solutions AG since 2010 taking responsibility for the company's financial performance and management as well as for team development, and international business. Together with Dominik Lehr, the founder of the company, they form the executive board.

Forrest has many years of experience in the IT market and has held various leadership positions in sales and marketing throughout his career. Prior to joining Befine Solutions, he was for six years Managing Director of C60, a consulting firm for technology providers. Prior to that he worked for six years as a sales and marketing director and chief operating officer at the UK IT security provider Sophos. He previously worked for Digital Equipment Corporation (also known as DEC or Digital), which was taken over by Compaq in 1998. Starting his career at DEC in sales, Mark was quickly promoted through various management roles culminating in a highly successful role for four years in the Middle East. He graduated from the University of Sheffield with a Bachelor of Arts degree in Geography.

About Cryptshare and Befine Solutions
The owner-managed Befine Solutions AG develops and supplies software solutions that help companies support, optimise, and secure their processes. Founded in the year 2000, the company with now over fifty employees has its headquarter and development site located in Freiburg im Breisgau, Germany. There are sales locations in the UK and the Netherlands. In 2017, a subsidiary in America was established: Cryptshare Inc.
The focus is on Cryptshare, a communication solution for the exchange of sensitive business information. It makes it possible to send and receive e-mails and large files ad-hoc – securely, easily and at low cost. Cryptshare also offers auditability which helps companies follow compliance rules and regulations. Today more than 1400 companies use Cryptshare with about 3 million users in over 80 countries. This success is underlined by the award of the "Cybersecurity Excellence Award 2017" to Befine Solutions AG.
